Slow cooker.

About ten minutes of work, then the pot does the rest. One cook makes 8 tubs: the next 3 days in the fridge, the rest in the freezer. Any 5.5 L slow cooker works. Not sponsored, no commission: the Contempo 5.5 L is $24 at Big W (bigw.com.au), cheaper than one week of prepared meals.

SLOW COOKER · 10 MIN HANDS-ON · 9 H 15 MIN TOTAL · 8 TUBS

BBQ Pulled Pork, bowl or burger

798	50 g	29 g	52 g
KCAL PER TUB	PROTEIN	CARBS	FAT

INGREDIENTS · WHOLE POT, 8 TUBS

Pork shoulder, boneless Buy: 1 boneless pork shoulder roast, 2 to 2.6 kg (Coles roasts are about 2.6 kg)	2300 g
Brown onion Buy: 1 brown onion	150 g
BBQ sauce, reduced salt & sugar (bottled) Buy: 1 × 475 ml bottle reduced salt & sugar BBQ sauce (about 545 g)	545 g
Smoked paprika pantry	2 tsp
Garlic powder pantry	1 tsp
Brown sugar pantry	30 g

METHOD

1. **Onion in.** Slice the onion and spread it over the bottom of the slow cooker.
2. **Season the pork.** Cut off the string and the thick fat cap. Rub the paprika, garlic powder and brown sugar all over and sit the pork on the onion.
3. **Sauce and start.** Pour the whole bottle of BBQ sauce over the pork. Lid on, LOW for 9 hours (or HIGH for 5), until the pork pulls apart easily with a fork.
4. **Shred.** Lift the pork onto a board and pull it apart with two forks; throw out any fatty lumps. Spoon the clear fat off the top of the sauce and discard it (about a cup).
5. **Back in the sauce.** Return the pork to the pot and stir it through the sauce. Taste before adding any salt: the sauce usually carries enough.
6. **Divide.** Ladle into 8 tubs, sauce and all. Leave the lids off until the steam stops (30 to 45 minutes, no longer than an hour), then lid on: tubs for the next 3 days into the fridge, the rest straight into the freezer. Spread them out, do not stack them, and never leave the food cooling in the slow-cooker bowl.

ON THE DAY

7. Microwave the tub with the lid ajar for 3–4 minutes, stir, then 1–2 minutes more until steaming hot all the way through (75 °C in the middle). Reheat it once only. From frozen: thaw overnight in the fridge first and eat within 24 hours. Bowl: over a 125 g rice cup or shredded lettuce. Burger: pile into a toasted brioche bun.

Keeps: fridge 3 days · freezer 3 months. Freezes 3 months. Put the tubs you will not eat by day 3 straight into the freezer once they stop steaming. **With it:** nothing; the tub is the meal.

4. **Cook.** Lid on, LOW for 8 hours (or HIGH for 4), until the mince is cooked through with no pink left. Give it one stir in the first hour if you are home.
5. **Finish.** Spoon off any fat on top. Mash a few times to break up any clumps. Taste before adding salt: the sachet carries plenty.

Tasty cheese, light (grated) Buy: 1 × 250 g bag light grated tasty cheese	31.3 g
Jumbo burrito tortilla Buy: 2 packs Old El Paso Burrito Jumbo tortillas (6 a pack; 4 left over, they freeze)	1

METHOD

1. **Fill the pot.** Diced onion, chicken, the whole tin of chipotles (roughly chopped), the taco sachet, both tins of tomatoes and the drained black beans. Stir so the chicken is under the sauce.
2. **Cook.** Lid on, LOW for 4 hours (or HIGH for 2½), until the chicken falls apart when pressed with a fork.
3. **Shred and thicken.** Shred the chicken in the pot. Stir in the drained corn, then cook on HIGH with the lid OFF for 45 minutes, stirring once, so the filling is thick, not soupy.
4. **Cool a little.** Spoon the filling into a wide bowl (or a baking dish) for 15 minutes so it stops steaming (warm filling tears tortillas less; hot filling makes them soggy). Do not leave it longer than 30 minutes.
5. **Roll 8 burritos.** Warm the tortillas 30 seconds in the microwave. Put an eighth of the filling (a big 1½ ladles) and an eighth of the cheese (a small handful, about 30 g) on each, fold in the sides, roll tight, wrap each in foil.
6. **Store.** Straight after rolling, before they sit on the bench: the burritos for the next 3 days into the fridge, the rest into a freezer bag and into the freezer, laid flat in one layer so they chill fast. Bowl version: ladle the filling into 8 tubs instead. Leave the lids off until the steam stops (30 to 45 minutes, no longer than an hour), then lid on: tubs for the next 3 days into the fridge, the rest straight into the freezer. Spread them out, do not stack them, and never leave the food cooling in the slow-cooker bowl.

ON THE DAY

7. Unwrap the foil, wrap in a paper towel and microwave 2 minutes, turn, 1–2 minutes more (from frozen: 3 + 2–3 minutes). Crisp in a sandwich press if you like. Bowl version: heat the filling in a tub, serve over a rice cup with the cheese on top.

Keeps: fridge 3 days · freezer 3 months. Burritos freeze 3 months wrapped in foil. Freeze them the day you roll them. **With it:** the tortilla and cheese (in the burrito).

METHOD

1. **Mix the sauce.** Scrape the jar of paste into the slow cooker. Stir in the light coconut milk, a tin of water, the fish sauce and sugar.
2. **Beef and onion in.** Cut the onions into wedges first, then the beef into 4 cm chunks if it is not already diced (raw meat last, so the board only needs one wash). Add both and stir so everything is coated.
3. **Cook.** Lid on, LOW for 8 hours (or HIGH for 5) until the beef breaks with a spoon.
4. **Finish.** Spoon off the orange oil that pools on top. Taste: a splash more fish sauce if it needs salt, sugar for sweetness.
5. **Divide.** Ladle into 8 tubs. Leave the lids off until the steam stops (30 to 45 minutes, no longer than an hour), then lid on: tubs for the next 3 days into the fridge, the rest straight into the freezer. Spread them out, do not stack them, and never leave the food cooling in the slow-cooker bowl.

ON THE DAY

6. Microwave the tub with the lid ajar for 3–4 minutes, stir, then 1–2 minutes more until steaming hot all the way through (75 °C in the middle). Reheat it once only. From frozen: thaw overnight in the fridge first and eat within 24 hours. Serve over a heated rice cup; crushed peanuts on top if you have them.

Keeps: fridge 3 days · freezer 3 months. Freezes 3 months. Put the tubs you will not eat by day 3 straight into the freezer once they stop steaming. **With it:** a 125 g microwave rice cup.

ON THE DAY, PER TUB	
Microwave jasmine rice pouch (cooked) Buy: 8 × 250 g microwave rice pouches, 1 pouch per tub	250 g

METHOD

1. **Oven on.** Heat the oven to 200 °C (180 °C fan). Boil the kettle.
2. **Fill the dish.** Dice the onions. Rinse the lentils in the colander, then drain and rinse the chickpeas. Tip lentils, chickpeas and onion into the dish with both tins of tomatoes, the coconut milk, curry powder, turmeric, cumin, garlic powder and salt. Pour in 700 ml boiling water and stir well so no lentils clump on the bottom.
3. **Bake covered.** Stand the dish on an oven tray, cover tightly with foil and bake 60 minutes.
4. **Stir and finish.** Take off the foil and stir, scraping the corners. Thick and catching at the edges? Stir in a splash of boiling water. Bake uncovered 15 minutes more, until the lentils have melted into the sauce.
5. **Spinach.** Stir in the spinach a handful at a time and the garam masala; the heat of the dal wilts it in a couple of minutes. Taste; a pinch more salt only if it needs it.
6. **Divide.** Ladle or spoon into 8 tubs. Leave the lids off until the steam stops (30 to 45 minutes, no longer than an hour), then lid on: tubs for the next 3 days into the fridge, the rest straight into the freezer. Spread them out, do not stack them.

ON THE DAY

7. Microwave the tub with the lid ajar for 3–4 minutes, stir, then 1–2 minutes more until steaming hot all the way through (75 °C in the middle). Reheat it once only. From frozen: thaw overnight in the fridge first and eat within 24 hours. Add 2 tbsp water first. Heat a rice pouch (90 seconds) and tip the dal over it.

Keeps: fridge 3 days · freezer 3 months. Freezes 3 months. Put the tubs you will not eat by day 3 straight into the freezer once they stop steaming. The rice stays in its pouch in the cupboard. Dal thickens in the freezer: add 2 tbsp water when reheating. **With it:** a 250 g microwave rice pouch.

1. Add the milk and yoghurt to the blender first to give the dry ingredients something to blend into.
2. Add the frozen banana, whey, cocoa powder, and peanut butter.
3. Start at low speed for 5 seconds to break up the frozen banana, then increase to high speed.
4. Blend on high for 60 seconds until completely smooth and silky.
5. Pour into a large glass. The frozen banana and peanut butter make it thick like a Maccas shake, not a sad gym drink.
